### PURPOSE

The purpose of this policy is to establish and provide for minimum company equipment for all fire companies.

### POLICY

In an effort to standardize the loose equipment supplied on all fire companies, this policy summarizes the quantity and type of equipment that is to be carried. It is recognized that some frontline companies may have additional equipment based on their response area and/or specialized mission. However, the equipment listed below is considered minimally fundamental and essential to the basic operation of the company. The equipment also complies with NFPA 1901 and the Insurance Service Officer Fire Suppression Rating Schedule.

#### Hydrant Bag

*In addition to the contents listed below each company type, a hydrant bag will be carried by all fire suppression companies with the following contents. These quantities DO NOT apply to the quantities listed under each company type.*
